VM-50 LapTop Pro

Screen & keyboard cleaning system.

The LapTop Pro is a compact LCD screen and keyboard cleaning kit. Its remarkable non-liquid cleaning compound removes messy fingerprints easily and safely. It has a unique cleaning compound that will not spill or dry-out. It's environmentally friendly and non-toxic. The super-soft LCD screen brush safely cleans dust, and the keyboard brush reaches under keys to remove dust and grit. Safe for use on all laptops and notebook LCD screens.

Directions:

- Remove dust particles on display surface with retractable LCD brush.
- Remove cap and wipe screen with smooth, circular motions of the soft chamois cleaning surface. If any smudges persist, breathe gently on the screen surface and repeat process.
- Replace cap on cleaning pad. This replenishes the unique cleaning pad.

Note:

Use only when screen is off and at room temperature. Do not use on wet surfaces. Do not use on nylon mesh or anti-glare screens. Follow all directions carefully for safe use.
